FROM: Greg Nybeck, Executive Director 

SUBJECT: 2011 LMCD Report

The Lake Minnetonka Conservation District (LMCD) is pleased to forward its Annual Report for 2011. The LMCD Board of Directors and staff manage the use of Lake Minnetonka's surface waters since the LMCD's inception in 1967. Management is performed with the highest regard and to the best of abilities.

These management efforts require a great deal of cooperation and partnerships with a number of other public and private sector organizations. A few of these include:

- 14 Lake Minnetonka communities;
- Hennepin County Sheriff's Office/Water Patrol;
- Hennepin County Environmental Services;
- Minnesota Department of Natural Resources (MN DNR);
- Three Rivers Park District (TRPD);
- Minnehaha Creek Watershed District (MCWD);
- U.S. Army Corps of Engineers;
- Commercial Stakeholders (including marinas, charter boats, and dock installers); and
- General Public.

Activities and projects of the LMCD are done in compliance with an approved Strategic Plan. This is the third annual LMCD Report resulting from a goal established in the Strategic Plan to improve the public's awareness of the LMCD. This Report will provide you further background on the following:

- General background of the LMCD;
- An overview of the LMCD Strategic Plan;
- An overview of 2011 LMCD programs and activities; and
- An overview of 2012 LMCD programs and activities planned.

Your feedback on this 2011 LMCD Report would be greatly appreciated. Feedback, and any other questions you may have, can be directed to my attention at gnybeck@lmcd.org or at 952-745-0789.

Table of Contents

	Page Number
